

**YEAR 5**

Mixed 11+ Practice Paper

A mixed paper covering everything from the Year 4 and Year 5 sheets. Give yourself 30 minutes and no calculator, then mark it honestly and note which section cost you the most marks.

Name: _____

Date: _____

Score: _____

Section A · Number

Show your working underneath each one.

① Calculate $4736 + 892$

② Calculate $6002 - 1478$

③ Calculate 38×7

④ Calculate $504 \div 8$

⑤ Calculate 17×20

⑥ Calculate $1000 - 649$

⑦ Round 4682 to the nearest hundred.

⑧ Write 0.35 as a fraction in its simplest form.

Section B · Fractions, percentages and measures

Read each question twice before you start.

1 Find three quarters of 60.

2 Find 15% of 240.

3 Share £120 in the ratio 3 : 5. What is the larger share?

4 A train leaves at 09:15 and arrives at 11:50. How long is the journey?

5 A rectangle measures 6 cm by 4 cm. Find its area and its perimeter.

Section C • Problem solving

Decide what the question is really asking before you calculate.

1 A book costs £7.45. How much change is there from £20?

2 Pens cost 65p each. How many can be bought with £5?

3 A recipe for 4 people uses 300 g of flour. How much is needed for 10 people?

4 A tank holds 2.5 litres. How many millilitres is that?

5 Ellie thinks of a number, multiplies it by 6 and subtracts 9. Her answer is 33.
What was her number?

6 In a class of 30 children, 40% walk to school. How many is that?
